- |                         |                     |
|-------------------------|---------------------|
| 1 kick drum             | 10 lead vocal       |
| 2 snare drum            | 11 vocal gtr 1      |
| 3 hi tom drum           | 12 vocal gtr 2      |
| 4 mid tom drum          |                     |
| 5 floor tom drum        | 13 bass guitar      |
| 6 Hi-hat !!!            | 14 guitar 1         |
| 7 Hi-hat !!!            | 15 guitar 2         |
| 8 overhead cymbals      | 16 keyboards (mono) |
| 9 overhead cymbals Mics | 1x monitor AUX      |

The band plays through the processors, using a splitter. The band has its own monitoring mix. The soundman installs drum mics, these go direct to the soundman. Other instruments go through our splitter at first and after that to the soundman.

**IMPORTANT! - THE SOUNDMAN SENDS MIXED DRUMS BACK TO THE BAND TO THE SPLITTER.**

**IMPORTANT! – The soundman prepares multi-pair cable with at least 8 in.**

One active monitor to the drumms with cables, we insert the to our splitter.

Sockets should be prepared as it is marked in the picture. Sockets for the pyrotechnics should be on the left or right side of the stage, depends on where there is a entrance to the stage, these sockets should be from the lightcycle (not from the sound systém, it could disturb the sound).

Multi-pair cable order:

- |             |              |
|-------------|--------------|
| 1) BASS     | 5) KEYB      |
| 2) GTR 1    | 6) -----     |
| 3) GTR 2    | 7) VOC gtr 1 |
| 4) LEAD VOC | 8) VOC gtr 2 |

When you want to print this stageplan for the soundman, do it with all the colors please. Red color indicate everything what we need to be prepared, in black/white version the soundman sees nothing. Please do not underrate preparation of the technical needs written in here, they helps our cooperation and it brings less problems. Than the audinece is satisfied and the promoter also.

For whole team RCZ- Rammstein Tribute Show
